

# LET'S WORK TOGETHER FOR OUR FUTURE

## SIMPLE ACTIONS TO TAKE

### **Nature, a wealth we need to protect**

- Pick up your rubbish, even the smallest bit
- Watch wildlife and animals without disturbing them, and follow advice from the shepherds
- Stay on marked trails
- Admire flowers without picking them
- Keep the peace and quiet of the summits

### **Water, a resource which should be preserved**

- Respect the clean, pure water in the 'bisses' and streams (avoid chemicals, rubbish etc)
- Drink tap water and take care not to waste it
- Accept water-saving measures suggested by accommodation providers

### **Respectful tourism**

- Respect the peace and quiet in local communities
- Prioritise sustainable transport (free shuttle buses, cycling, walking etc...)
- Sort rubbish for recycling according to local guidelines
- Encourage fair tourism by accepting that some local services or products are priced in order to fairly remunerate the work involved
