Build and race a wooden raft

Price From CHF 135.- / per person

Description

This programme involves building a raft and racing it on calm water.

This is one of our iconic team-building events, which is sure to ignite the competitive spirit of your teams as they work together to craft and build their own makeshift rafts, working intelligently to make sturdy enough constructions, whilst making the most of their time to get it in the water quickly.

Although the crystal clear lakes in the Alps are one of our favourite places, any body of water or lake could be additional locations to organise this programme.

Highlights

> Discover Crans-Montana's mountain lakes
> Teams have a set timeframe to build their raft and prepare for the race
